PARV GOYAL

Karnal, Haryana, +91 6354741443, goyalparv0931@gmail.com

PROFILE

Detail-oriented 3rd-year CSE student proficient in Java, Python, and full-stack web development. Experienced in taking projects from concept to deployment, highlighted by a recently launched commercial website and background in IoT automation. Adept at leveraging Data Structures and modern frameworks to solve complex problems. Eager to contribute to a dynamic engineering team while expanding expertise in software development and real-world system architecture.

EDUCATION

2023 — 2027

BE Computer Science, Chandigarh University

6.54 CGPA

2023

Class XII (HSC) | Welspun Vidya Mandir, Anjar

Percentage:65.2%

2021

Class X (SSC) | Welspun Vidya Mandir, Anjar

Percentage: 79%

SKILLS

Languages**:** Java (Core), JavaScript, Python, SQL, C++, HTML, CSS, React

Backend And Database : Node.js, Express.js, MongoDB, MySQL, JDBC

Developer Tools : Git & GitHub, VS Code, Web Hosting & Deployment

TRAINING AND PROJECTS

Apr 2024

Water Level Controller using 8051

- Developed a Water Level Controller using 8051 microcontroller as a team project.
- Monitored water levels using sensors and controlled the pump via relay module.
- Programmed the system using Embedded C for automatic operation.
- Prevented water overflow and motor dry running.
- Gained experience in embedded systems, hardware interfacing, and teamwork.

Nov 2024

Smart Irrigation System using Blynk IOT

- Developed a Smart Irrigation System using Blynk IoT platform as a team project.
- Monitored soil moisture levels using sensors for real-time decision making.
- Controlled water pump/valves remotely through the Blynk mobile application.
- Implemented IoT-based automation to optimize water usage.
- Programmed the system using Embedded C / Arduino IDE.
- Improved irrigation efficiency through smart monitoring and control.

Jul 2025

Summer Training in CPS with IoT Applications

- Learned CPS with IoT applications, focusing on sensor integration, real-time monitoring, and automation.

Jan 2026

Web Developer | R P Goyal & Sons Pvt Ltd (www.rpgglobal.co.in)

- Designed and deployed a fully responsive commercial website to establish the business's digital presence.
- Managed front-end architecture, UI/UX design, and core asset configuration (including custom branding).
- Handled full-cycle project delivery from initial concept to successful live commercial deployment.
